

TECHNOSTONE BRINGS YOU NEXT GENERATION HEAT RESISTANT TILES

Ceramic Based Semi-Vitrified Tiles

REDUCES SURFACE TEMPERATURE BY UP TO 20°C!!

ECO-FRIENDLY, MADE IN INDIA, WORLD'S BEST

SPECIFICATION

Type

Ceramic Based

Appearance

Marble Print

Materials Used

Infrared Resistive Composition (Non-degradable)

Tile Thickness

9MM (\pm 1mm)

Tile Dimensions

600 mm x 600 mm

Water Permeability

Impervious to Water

Solar Reflective Index (SRI)

104 (ASTM E 1980)

Hardness

5/6 Mohs scale

Reflectance

0.8298 (ASTM E 903)

Emittance

0.862 (ASTM E 1371)

IS Standard

As per IS 15622:2006

Method of Fixing

Just like any other ceramic tile

SALIENT FEATURES

25% more efficient than any other cool roof technology with 104 SRI (SRI-Solar Reflective Index)

Easy to install, maintenance free
